

AcuSketch Tour

Drawing lines

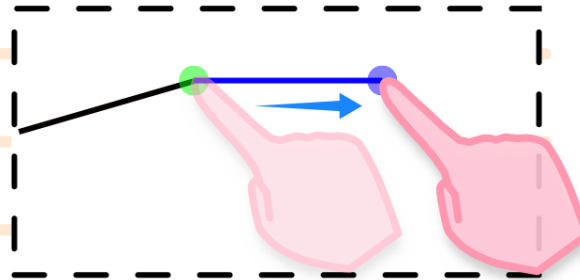

Press the pencil button and draw on the canvas displayed on the iPad screen with your finger.

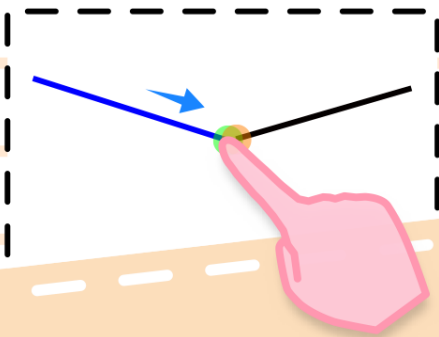

Lengthen lines

By starting to draw from the end of an existing line, you can extend lines.

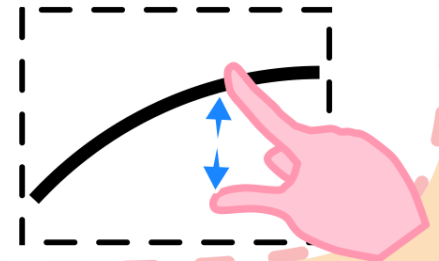

Joining lines

When you finish drawing a line, you can connect the end of the line with another one.

Point

By using the Zoom function, it's easier to draw.

AcuSketch Tour

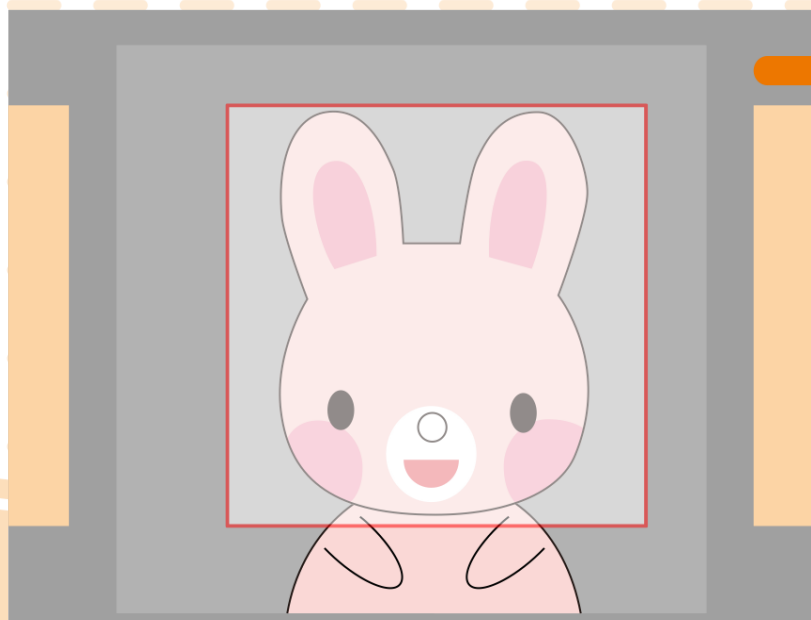

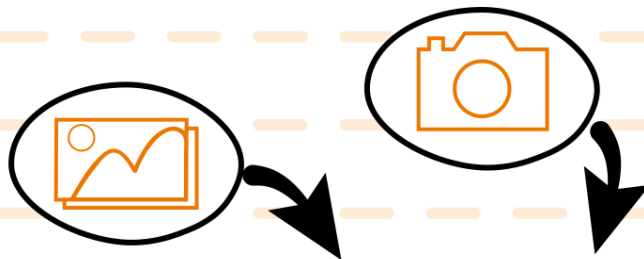

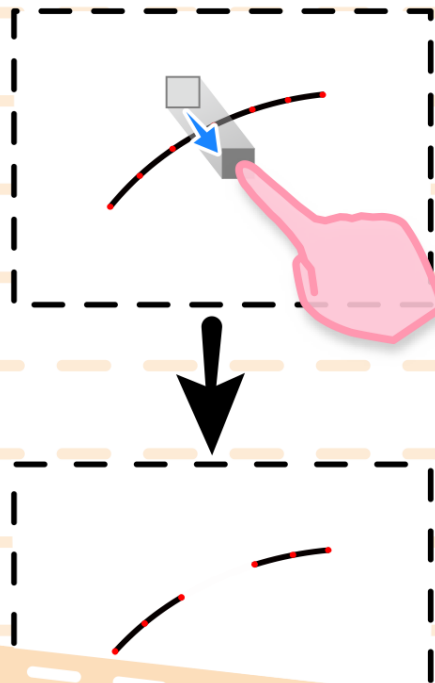

Erasing lines

When the eraser button is selected, red dots appear on the lines. When the red dots are erased, part of the line disappears.

Insert an iPad image and trace a design by hand.

Creating Stitches

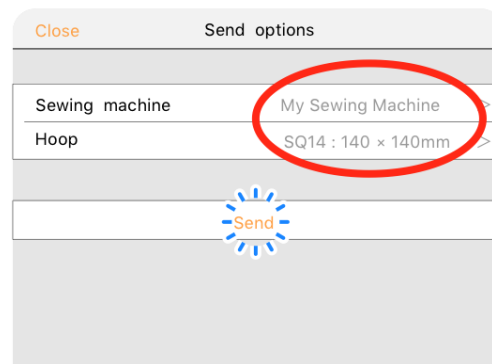

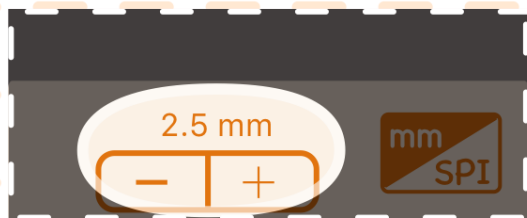

When you have finished drawing the lines, tap the "Stitch" button on the upper right of the screen.

Send the free-motion-quilting-like design to the sewing machine.

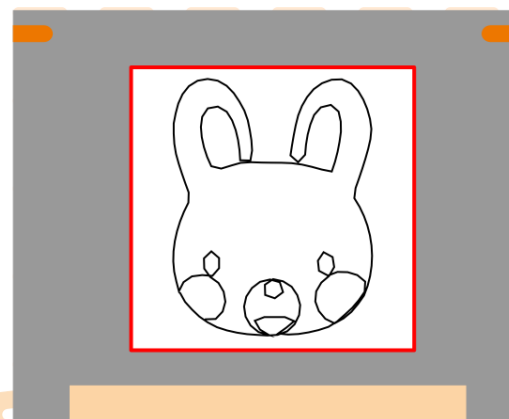

Setting pitch

Set the desired stitch length.

Setting locking stitches

You can choose to add locking stitches to the ends of the drawn line.

Let's quilt!
